At an early hour, it was known that the military would not turn out, and so the volunteers respected the reading and the right to re-peat them has been openly claimed by the leading inhabitants, with at least the silent acquiescence of nearly all the others. Their hostility to the lawful Government of the country has at length become so violent that no officer bearing a commission from the Chief Magistrate of the Union can enter the Territory to great them. After carefully considering this state of affairs. and maturely weighing the obligation I was under to see the laws faithfully executed, it seem ed to me right and proper that I should make such use of the military force at my disposal as might be necessary to protect the Federal officers in going into the Territory of Utah, and in performing their duties after arriving there.—
I accordingly ordered a detachment of the army to march for the City of Salt Lake, or within reach of that place, and to act in case of need as a posse for the enforcement of the laws. But, in the meantime, the hatred of that misguided peope for the just and legal authority of the Government had become so intense that they resolv ed to measure their military strength with that of the Union. They have organized an armed force far from contemptible in point of numbers, and trained it, if not with skill, at least with great assi luity and persevereance. Fellow-citizens of Utah, this is rebellion against the Government to which you owe alle glunee. It is levying war against the United States, and involves you in the guilt of treason. Persistence in it will bring you to condign punish ment, to ruin and to shame; for it is mere madness to suppose that, with your limited resources, you can successfully resist the force of this great and powerful nation.

If you have calculated upon the forbearance of the United States—if you have permitted yourselves to suppose that this Government will fail to put forth its strength and bring you to sub--you have fallen into a grave mistake. You have settled upon territory which lies geo graphically in the heart of the Union. The land you live upon was purchased by the United States and paid for out of the Treasury. The proprietary right and title to it is in them, and not in you. Utah is bounded on every side by States and Territories whose people are true to the Union. It is absurd to believe that they will or can permit you to erect in their midst a government of your own, not only independent of the authority which they aeknowledge, but hostile to them and their interests.

Do not deceive yourselves nor try to mislead others by propagating the idea that this is a cru sade against your religion. The rebellion is not merely a violation of your legal duty; it is without just eause, without reason, without excuse. You never made a complaint that was not listened to with patience You never exhibited a real grievance that was not redressed as promptly as could be. The laws and regulations enacted for your government by Congress have been equal and just, and their enforcement was manifestly necessary for your own welfare and happiness. ## MOSELEY'S TUBULAR WROUGHT IRON

ARCH BRIDGES AND ROOFS.

THESE Bridges and Roofs have now been fully tested In this vicinity, and his universally conceded that hey cannot be excelled. The Roofs are wholly of Vrought Iron, or mixture of Wood and Iron; Sheetlug

Wrought from, or mixture of Proceedings always from.

The Bridges are wholly Wronght from except the floors, which is wood, like the floors of ordinary Bridges. We are prepared to make these structures in any quantities, at prices about as follows:

Railroad Bridges, 50 feet span, 8,000 lbs, \$17 50 per foot lineal.

Common Road or Turnpike, 50 feet span, 2,600 lbs,

S 73 per foot lineal.

Roots, all iron, 50 feet width of building, \$25 per 100 squa.e feet, part wood aud part iron, from \$12 to \$20 per square.

Lagrange of ann. of bridges or width of buildings

squale feet, part wood and part iron, from \$12 to \$20 per square.

Increase of span of bridges or width of buildings makes an increase of price, but the increase in price is no more than the increase of wooden structures.

We can furnish Iron of every size to work Into Britges and Roofs, and Ruifroads or other companies buying the right to use them and the iron of us, can make their own structures one third less than the above prices. Our structures weigh only Iron 1-4 to i-10 that of wood; difference in freight in a long distance buys our work. In a few days we will have at our Factory, 497 West Third street, in this city, four different specimens of our Koof, where the public can inspect them to their satisfaction. We beg them to give us a call, as all our work is warranted, and we ask no pay on ordinary jobs until the work is done and approved, payments being secured on contracting.
